Riya Mahendra Ganjekar

PGDM Business Design 2025-27

Major Concentration: Design Thinking, Strategy and Consulting

Minor Concentration: Marketing

Internship

Frost & Sullivan (India) Pvt. Ltd , Growth Opportunity Analytics Intern **May - July 2026**

- Researched aftermarket growth opportunities across Agriculture, Construction, and Mining equipment industries. Benchmarked 15+ global OEMs on product portfolios, autonomy initiatives, telematics, and aftermarket service strategies.
- Evaluated emerging technologies and market trends to identify commercialization and partnership opportunities. Developed competitive dashboards, trend matrices, and executive-ready market insights for strategic decision-making.
- Synthesized insights from annual reports, investor presentations, OEM announcements, and industry case studies to identify recurring revenue opportunities.

AcelInt (Bootcoding Pvt. Ltd.) , Business & Financial Analysis Intern **Nov 2025 – Dec 2025**

- Researched B2B customer segments (colleges, corporates, EdTech partners) to understand adoption drivers, decision criteria, and pain points, supporting targeted communication strategies. Conducted competitor benchmarking to analyse pricing, packaging, and positioning, and proposed a 3-tier offering structure aligned to different customer segments.
- Developed pricing and go-to-market recommendations using industry benchmarks, including a per-user vs. bulk pricing model to support market entry decisions. Supported go-to-market and campaign execution by drafting pitch decks, outreach emails, and pilot onboarding plans for early institutional adoption.

Work Experience

Dimensions Architects PVT Ltd., Junior Architect **Feb 2025 – June 2025**

- Contributed to 7 residential and commercial projects (~200,000 sq. ft.), supporting concept development, spatial planning, feasibility studies and technical documentation.
- Optimised circulation, zoning and user flow for high-footfall and multi-storey projects, balancing accessibility, functionality and regulatory requirements.

Projects at WeSchool:

AI-Powered Lead Generation Agent — B2B Sales Automation **August 2026**

- Designed and built an AI-enabled B2B lead-generation workflow using n8n to automate lead sourcing, data capture, qualification and personalised outreach.
- Integrated LinkedIn/company research, Google Sheets, AI-based lead scoring and categorisation, personalised email generation, and CRM synchronisation into a connected end-to-end pipeline.
- Developed KPI tracking for total leads, qualified leads, conversion rate and expected revenue, enabling performance monitoring from prospect discovery through lead conversion.

Plinth — Business Plan

Oct 2025

- Identified fragmentation and inefficiencies in the construction ecosystem through market research and stakeholder/user analysis.
- Designed an asset-light, technology-enabled business model connecting clients, design professionals and skilled trade partners. Developed the value proposition, revenue model and go-to-market approach to create a scalable platform.

Case Competitions

Amazon ACE Challenge 2025 – Quick Commerce Strategy Case Study **July 2025**

- Analyzed the Indian quick commerce market to identify adoption drivers and gaps in existing platform offerings. Developed a differentiation strategy for Amazon NOW through a "Wide and Deep Assortment" model to improve product availability and customer experience.
- Applied Blue Ocean and Purple Ocean frameworks to position Amazon NOW beyond price competition in the quick commerce space. Conducted a consumer survey analysis to identify key purchase drivers such as fast delivery, pricing, and product quality, informing segmentation and growth strategy.

Certifications

- SEBI Investor Awareness Test (2025), Bloomberg Finance Fundamentals (2025), NISM Research Analyst(Pursuing), Udemy Power BI Masterclass (Pursuing), Skilled Sapiens: Live Project_ Growth & Strategy Consultant - Market Segmentation, Go-To-Market (GTM) Strategy, Financial & Pricing Skills

RESPONSIBILITIES AND ACHIEVEMENTS (Academics, Competitions, Others)

Achievement: Coca-Cola Challenge, proposed strategic solutions for "Tariffs and Sustainability," balancing cost optimization and eco-friendly practices.

Responsibilities: Volunteered in seminars/workshops and organized college fests and academic events, ensuring smooth execution.

Currently part of the LinkedIn Content Creation Team, BusinessDesign (Batch 2025–27) at WeSchool.
